

JEI 2020 Flex Composition Project

JEI members can download and use three brand-new compositions for jazz band, structured specifically as flex charts. Our thanks to composers Steve Shanley, Mike Conrad, and Chris Merz for creating these charts, particularly Steve, who came up with the idea.

You can view and download any or all of the compositions at this password-protected link:

<https://www.dropbox.com/sh/s0ckzu96asq7ea4/AAAlqCK122cW42odrISHo4SWa?dl=0>

If you are a current JEI member and have not received the folder password, contact JEI secretary [Jen Tiede](#).

These compositions are made available to you as a benefit of your current JEI membership. The composers plan to publish and sell these charts to others in the future, so please do not share/give away the PDFs or password. If a friend or fellow director asks about a piece, please remind them JEI membership is only \$20! Even if the only thing you use your membership for is to download these charts, it's the best bargain around.

Each composition comes with instructions on how to use the materials. I'm sure the composers would be happy to answer any questions you might have individually as well.

Thanks again for being a JEI member. We hope these charts are a good tool for you to negotiate these extraordinary times!
